2.75		

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

4. Please provide any additional information about the information provided above: Currently, there are two options for admission into the Teacher Education Program. Option A requires a 2.5 GPA and completion of the ETS CORE or ACT with appropriate scores. Admission cohort data (GPA and Core Basic Skills of Educators: Reading, Writing, Mathematics) indicate that for the past three years, Bethel candidates have met KSDE and CAEP requirements for accreditation (Cohort mean GPA above 3.000 and Cohort mean scores on the CORE in Reading, Writing, and Mathematics above the national median score). Implemented in Fall 2021, Option B requires a 2.75 GPA and an Interview, as well as other requirements (no test required). Admission cohort data demonstrate Bethel candidates met KSDE and CAEP

Section I: Program Information

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

• Academic Major

Teachers Prepared by Subject Area

Back To Top

13.1329

Please provide the number of teachers prepared by subject area for academic year 2020-21.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐ No teachers prepared in academic year 2020-21

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

Teachers Prepared by Subject Area

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

Teachers Prepared by Academic Major

Back To Top

Please provide the number of teachers prepared by academic major for academic year 2020-21. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program? C Yes • No

☐ No teachers prepared in academic year 2020-21

If your program does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or <u>clear responses already</u> <u>entered</u>).

8. Describe your institution's most successful strategies in meeting the assurances listed above: Bethel College has created partnerships with local school districts as well as with schools in the Wichita School District (Wichita is the largest city in Kansas). Through these partnerships, Bethel candidates have the opportunity to work directly with students from diverse backgrounds (e.g., racial/ethnic, language, Socioeconomic Status, gender, rural/urban, and ability/special needs). Course work is directly tied to field experiences. Bethel has been most successful when incorporating field experiences in classes to support the course content. Specifically, candidates in Adaptive Special Education must achieve an initial license in a core academic subject and Special Education is an added endorsement to the existing license. General education teachers receive training in providing instruction to children with disabilities throughout the curriculum, but most significantly through the course, EDU 210 Introduction to Infants, Children and Youth with Special Needs. As part of course requirements, candidates are required to participate in field experiences in special needs classrooms and in regular education classrooms with special needs students included. General education teachers receive training in providing instruction to limited English proficient students, in providing instruction to children from low-income families, and on how to effectively teach in urban and rural schools throughout general and content specific

Section II: Annual Goals
Annual Goals: Mathematics
Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

6. Provide any additional comments, exceptions and explanations below:

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction G Yes
 No
- use technology effectively to collect data to improve teaching and learning Yes
 No
- use technology effectively to manage data to improve teaching and learning G Yes
 No
- 4. use technology effectively to analyze data to improve teaching and learning Yes No
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place. Candidates learn how to integrate technology into curricula and introduction through coursework and related activities. EDU300 Media and Computer for Educators introduces teachers to a variety of technology tools and issues related to the integration of these tools. Content Methods courses further explain how to integrate technology into specific content areas. Candidates demonstrate their ability to effectively integrate technology in instruction during the student teaching experience. Candidates learn to use technology effectively to collect, manage, and analyze data to improve teaching and learning in EDU325 Methods of Teaching and within content specific methods courses. The ability of candidates to use technology to effectively collect, manage, and analyze data to improve teaching and learning is assessed during their student teaching semester in the course EDU460A/EDU475A Practicum/Seminar in Student Teaching. Assessment is completed through the use of the Kansas Teacher Work Sample (K-TWS) and the Kansas Clinical Assessment Tool (K-CAT) completed by college supervisors and cooperating teachers.

Candidates learn how to integrate technology into curricula and introduction through coursework and related activities. EDU300 Media and Computer for Educators introduces teachers to a

- 1. Provide a description of the activities that prepare general education teachers to:
 - Teach students with disabilities effectively Bethel College prepares all teachers to teach students with disabilities in inclusive classrooms. In EDU 210
 Introduction to Infants, Children, and Adults with Special Needs, students learn about RTI (Response to Intervention) and the Kansas MTSS (Multi-tiered Support System) three-tiered framework set up to help all children learn prior to referral to special education. By understanding the process of MTSS, Bethel's teacher candidates learn the importance of being able to differentiate instruction so all students can learn. If students are not learning after tier 3 of documented differentiation and interventions, the student may be referred to a student assistance team and then evaluated as to if they qualify for special education. Additional suggestions for effective teaching of special needs students are discussed in both general methods and specific content methods

	courses. and Adults with Special Needs, students learn
2.	Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the <i>Individuals with Disabilities Education Act</i> . In EDU210 Intro to Infants, Children, and Youth with Special Needs specifically, Bethel's teacher candidates learn that general education teachers play a vital role in the IEP process by helping develop goals, monitoring, and assessing students with special needs and collecting data. Bethel College Teacher candidates understand they must give modifications and accommodations to students with disabilities as required by law. In their student teaching semester, students are assessed on their ability to work with students with special needs by creating plans with modifications and accommodations In EDU210 Intro to Infants, Children, and Youth with Special Needs specifically, Bethel's teacher candidates learn that general education teachers play a vital role in the IEP process by helping
3.	Effectively teach students who are limited English proficient. General education teachers learn about models for teaching limited English proficient (LEP) students in EDU 310 School and Community and general methods courses. Specific strategies for assisting LEP students in general classrooms are also discussed and applied in lesson plan modifications. EDU 310 field placements in ELL classrooms (and in a dual language magnet K-8 school) allow general education teachers to observe firsthand how students acquire another language. Additional suggestions for effective teaching of LEP students are discussed in specific content methods courses. During their clinical experience, candidates are assessed in their ability to modify plans and instruction to meet the needs of diverse P-12 students in their classrooms. They are assessed using a teacher work sample, the Kansas Teacher Work Sample (K-TWS) General education teachers learn about models for teaching limited English proficient (LEP) students in EDU 310 School and Community and general
2. Does	your program prepare special education teachers? • Yes
	Teach students with disabilities effectively Note: The endorsement for Special Education in Kansas is not offered through an initial license, but rather is an added endorsement to an existing license. Teach students with disabilities effectively: Bethel College prepares special education teachers to teach students with disabilities effectively through the Kansas Independent Colleges Association (KICA), KICA is a consortium of member colleges currently including Bethany College at Lindsborg, Bethel College at North Newton, Central Christian College at McPherson, Kansas Wesleyan University at Salina, McPherson College at McPherson, Sterling College at Sterling, and Tabor College at Hillsboro. Undergraduate and post-baccalaureate students are enrolled in one of the member colleges to pursue endorsement in high-incidence special education at the K-6, 6-12, and PK-12 levels, and KICA provides the undergraduate endorsement coursework that includes field experience for three of the four courses. KICA has developed an assessment system that is aligned with its conceptual framework, Kansas High-Incidence Special Education Standards, and national standards for teacher accreditation. KICA has a fully accredited program. The assessment system includes content-based assessment (Praxis II), assessment of the candidate's ability to plan instruction, assessment of clinical experience, assessment of candidate's effect on student learning, philosophical/historical/legal foundations, assessment, and managing behavior/problem-solving/social skills. KICA students consistently meet or exceed standards. Students unable to meet standards are not formally accepted into the KICA High Incidence (Adaptive) Special Education Program, which is required before clinical experience (student teaching). Cooperating teachers rank KICA students as proficient or distinguished on final assessment conference reports. Note: The endorsement for Special Education in Kansas is not offered through an initial license, but rather is an added endorsement to
2.	Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the <i>Individuals with Disabilities Education Act</i> . Participate as a member of individualized education program teams: KICA prepares special education teachers to participate as a member of individualized education program (IEP) teams. Coursework assignments include observation of an IEP and IEP team meeting, IEP videos/simulations, lecture captures on IEPs, planning of an IEP based on a case study, and preparation of an IEP during student teaching (clinical experience). Participate as a member of individualized education program teams: KICA prepares special education program teams: KICA prepares special education teachers to participate as a member of individualized education program (IEP) teams.
3.	Effectively teach students who are limited English proficient. Teach students who are limited English proficient effectively: KICA prepares the special education teacher to work effectively with diversity, including limited English proficiency. Coursework includes diversity interviews, diversity issues in assessment, diversity reference materials, lecture captures on diversity, reading programs for limited English proficient learners, and an oral exam with Teach students who are limited English proficient effectively: KICA prepares the special education teacher to work effectively with diversity, including limited English proficiency. Coursework diversity questions.

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The Teacher Education Programs at Bethel College are accredited by the Kansas State Department of Education (KSDE) and the Council for Accreditation of Educator Preparation. The institution submitted programs for approval on October 1, 2017; all programs were approved with no areas for improvement and all standards met. The institution hosted a joint KSDE/CAEP on-site visit in Spring 2019 with an accreditation decision granted by CAEP and KSBE November 2019. Bethel College Mission: Bethel College prepares students for meaningful lives of work and service through faith formation, the liberal arts, and practical experience in career pathways. Teacher Education Mission: The faculty in the department of teacher education at Bethel College is dedicated to preparing reflective teachers. The education program is designed to develop proficiencies in academic and professional knowledge bases and those dispositions that provide a grounding for reflective thinking, particularly those of caring and respect for diversity. The program is embedded with the belief that reflective thinking is congruent with effective practice. Teacher Education Vision: The vision of the faculty in the department of teacher education at Bethel College is to have a teacher education program embedded with reflection. Students reflect on their content knowledge to be better able to sequence learning, to understand underlying relationships, to prioritize and distill the essence of the content. Students reflect on pedagogical practice, observing, evaluating, comparing, examining results, looking for reasons and consequences. Our vision also includes students developing a better understanding of their own beliefs and philosophies and under the light of reflection becoming teachers who will be caring and respectful of diversity. See the following web sites for additional Bethel College notable features and accomplishments: http://www.bethelks.edu/
